

Group Presentations Assignment

MAXIMUM TIME for ACTIVITY: 15 minutes

Throughout the term, small groups of randomly assigned students will engage the class on a specific activity or discussion based on the presented chapter. Assigned activities will be selected by the instructor.

Due to the size of the class, each topic will be assigned a group of 4 who will present the activity or interactive discussion with the class. The class can be broken into smaller groups to make the activity more personal and illicit more participation from members. The instructor will rotate through groups to check on progress and assist or support as needed.

Activity must

1. Be relevant to the content of the chapter
 2. Assist students in learning more about themselves in relation to the content
 3. Engage all members of the smalls groups
 4. **Be no longer than 15 minutes**
- ▶ It is expected that the presenting group **understand the topic** they are presenting and engage the class in an activity that is useful, productive, and engaging.
 - ▶ Creativity and “thinking outside the box” is permitted, however all activities not already found within the textbook or student manual **MUST be approved by the instructor.**
