

## **Classroom Assignment: TAG This- First HTML play experience!**

Take a moment to determine the HTML codes needed to work on this by reviewing the Big List of HTML tags. Then complete the following in Notepad

1. Save your file as: NAME\_myfirst.html
2. Create a title called "My First HTML thingy..."
3. Set the background color
4. Create your name in italics in a statement
5. Create two different color of text
6. Create a list of 3 things you like to do
7. (either an ordered or unordered list)
8. Create a LINK
9. Insert a picture
10. Put a border around the picture
11. In the <head> tags of the file, create the following line:  
    <!--Your Name This is my first HTML attempt! -->

Test your page. You must submit a print out of your code.
